The Court is Still in Secret Session Examining Papers.

Chanoine Examined and Now Paleologue is on the Stand—No Sensational Announcements.

RENNES, France, August 10.—The Dreyfus court-martial resumed its secret session this morning. The body finished with the examination of ex-Minister of War Chanoine and commenced the examination of M. Paleologue, of the foreign office. Captain Dreyfus crossed from the prison to the Lyceum unaccompanied this morning. At the noon recess, however, he was guarded by a double file of infantry and cavalry, which were standing on either side of him to back.

The only revisionist paper in Rennes has been ordered by the department commander to stop sending copies of the paper to the military club.

President Jouhaux, of the court-martial, announced this morning that the next public session of the court would take place Saturday.

## CUBAN GIRLS.

Fifty Orphans to Be Sent to Chattanooga Institution.

CHATTANOOGA, Tenn., Aug. 10.—Gen. Fitzhugh Lee is preparing to send fifty Cuban girls to this city from the island to be educated here. Mrs. S. A. Steele sometime ago wrote Gen. Lee offering to take fifty girls in her orphanage home to be educated and homes secured for them. Gen. Lee took up the matter and sent Rev. Barnes, a Presbyterian minister, here to investigate Mrs. Steele and her home to see if it was a fit place for the girls. The minister has reported to Gen. Lee that the girls should be sent.

Rev. Barnes himself leaves the last of this month to bring the Cubans to Chattanooga.

## THAT NEW ELIXIR.

The experiments being made with Symp from the glands of goats is attracting considerable attention in certain circles where something in the way of a new elixir of life is very much needed. While it is not contended that the fluid into which the goats' lymph enters as an important component will give youth to the aged, the experimenting physicians are free to assert that it certainly stays the hand of decay and puts new life into the feeble.

## STORM NEAR MURRAY.

Frank Clayton came near being killed a mile from Murray yesterday afternoon. There was a heavy wind storm in that section, and a huge tree was blown down across the Concord road and struck the back of Clayton's wagon. Fortunately he escaped. No serious damage is reported from the wreck.

## NO FIGHTING TODAY.

Americans Are Resting and Reconnoitering.

The Hope Held Out by Leaders to the Insurgents—The Loss to Our Soldiers Yesterday.

WASHINGTON, Aug. 10.—A cablegram from Gen. Otis gives further details of Gen. MacArthur's movement near San Fernando yesterday. It says: "MacArthur's movement yesterday was very successful. He now serves a clear country in the rear and right left of insurgents; having advanced north to Calicut six miles from San Fernando, whence he is now reconnoitering. His casualties were five killed and twenty-one wounded. The officers wounded are: Maj. Braden, Capt. Abner. Thirty-sixth volunteers, leg and arm, moderate; Lieut. Williams, Fifty-first Iowa, thigh, moderate.

These troops operated to left and rear toward Santi Rita. MacArthur's advance, under Wheaton and Liscomb consists of Ninth, Twelfth, Seventeenth, part of Twenty-second regiments, portion of Fifty-first Iowa. The movement was very difficult on account of the mud and our surface water. MacArthur reports insurgents' loss a hundred killed, and some three hundred wounded. They were rapidly driven northward and last night apparently abandoned Fort Calicut, where they blew up powder works.

MANILA, P. I., August 10.—There had been no fighting north of San Fernando up to noon today. The troops under General MacArthur are resting at Calicut. General Wheaton is reconnoitering.

Several gunboats shelled San Fernando de la Union, where the insurgents are lodged, this morning, causing extensive damage. The insurgents replied with musketry and some cannons, but were finally driven off.

WASHINGTON, August 10.—The following came from General Otis this afternoon: "Have captured some letters of high insurgent authority, exhorting the inhabitants to hold out a little longer, saying that European recognition would be granted by August 31, and that the present United States authority would be overthrown."

WASHINGTON, August 10.—General Otis cabled this morning that five Americans were killed and twenty-five wounded in yesterday's battle.

SARATOGA, N. Y., Aug. 10.—Many Democrats of prominence are arriving here daily, and when Coker comes a conference of Democrats opposed to free silver and Bryan will be in full blast. However, Bryan has many friends here, and they are not inactive.

## ROOT'S POLICY.

Rebels in the Philippines Will Be Crushed Without Delay.

HOTEL CHAMPLAIN, N. Y., Aug. 10.—Secretary Root had a long conference with President McKinley while here. At the close the whole Philippine situation had been gone over, and the two were agreed as to what was to be done. Secretary Root left to take immediate action to carry out the decisions reached.

The Secretary, while waiting for the train, talked very earnestly about the need of bringing matters to a head in the Philippines. He declared that there never was any reason for doubt as to his own course. "The war," he said, "would not halt, but it would be prosecuted vigorously and to a finish." Then he made this important statement:

"All the men and all the arms necessary to put down the rebellion will be forthcoming at once. At the beginning of the dry season there will be 50,000 soldiers in the Philippines and more if necessary."

When questioned again if the President agreed with him on this point of sending men enough to the battle field, the Secretary said emphatically that they were in absolute accord upon that point. There was nothing else on which they differed.

At the close of the interview the Secretary repeated:

"All the men and all the arms necessary will be furnished. The war will be prosecuted vigorously and there will be no let-up until the end."

## SERVANT TELLS THE TALE.

The social status of any family can be gauged most accurately by the person who answers the door-bell. A slatternly servant means a slatternly mistress, or, what is almost as bad, an incapable one. For the mistress of the house herself to open the door, when so appalled that she feels compelled at once to plunge into a sea of apologies, is a confession of incapability and bad taste. The visitor who is received by a speechless or unkempt child also receives an impression of the household that is justly unfattering.—The Gentlewoman.

## MUCH MIXED.

There Was All Sorts of Searing in Judge Sanders' Court.

Jennie Gray told a very interesting story to Judge Sanders this morning. She claimed that last Sunday evening Alex Thomas, who lives on Adams street near Seventh, went home, where she is staying, and made improper proposals to her, and upon meeting with a refusal drew a knife on her and threatened to kill her when she was asleep. His daughter and two men were also present at the time she said. She had a female friend there to corroborate her, but Thomas, his daughter and the men swore to the contrary. A crippled shoemaker of the same neighborhood said the truth was that the wife of Thomas was trying to run him away from home, and that the two women who testified were both among the worst in town. Judge Sanders said that some one had sworn falsely and he intended to ascertain who it was if possible. He left the case open until tomorrow.

## COUNTY SENSATION.

George Flowers Arrested Charged With Criminal Assault.

Facts Lodged by Miss Katie Mansfield—Flowers Says He Is Not Guilty.

There was great excitement yesterday afternoon late in the Woodville section of the county when George Flowers, a well known young farmer, was taken into custody by Constable Clark Fortson on a charge of criminally assaulting Miss Katie Mansfield, a daughter of Reuben Mansfield.

The prisoner is about 25 years old, and according to the story of the young lady, she had been to visit the Flowers' home, and was to have been taken home Tuesday morning by Mrs. Flowers herself, but on account of the people about coming to the circus and the colored celebration, it was deemed best to send her in a buggy with Flowers. She alleges he took her to a secluded portion of the woods, giving as his excuse that he had business there, and then compelled her to accede to his demands. He threatened to kill her if she told, she declared and she had been home some little time before she summoned up courage enough to tell her mother. Flowers, his friends allege, claims that he had been on intimate terms with the girl for many months, and does not deny having improper relations with her.

He was not placed in jail, but was guarded all night and this morning sent in and employed Lightfoot and Berry and they went out this forenoon to defend him in the preliminary trial which comes up this afternoon at 1 o'clock before Justice Bryant. County Attorney Eugene Graves went out to prosecute.

There is said to be much excitement in the section, and both sides have strong friends. A gentleman in from the section this morning stated that the greatest excitement prevails, and that last night a mob of twenty-five or thirty determined men searched the locality for Flowers, but he was hidden out by the officers. He would certainly have been hanged if they could have gotten hold of him. It required eight or ten men to prevent the girl's father from killing the prisoner.

The attorneys who left today to defend him stated that they would waive examination, when they left. The girls only 17 years old, and the gentleman who brought the information in this morning said that Flowers, after telling several different stories, virtually admitted his guilt, which changed things against him.

It is predicted that he will be lynched. If brought away in the day time, he may escape, but it is thought that if an effort is made to keep him until after nightfall, he will be hanged.

## STABBED IN THE KNEE.

Wound Inflicted by Mattie Puckett on Her Husband.

Marshal Collins Captures Her After a Lively Chase—Case Continued.

Mattie Ashford, colored, who has a hunted expression and a terrible temper, was charged last night with her husband, King Puckett. She caught him in an alley and stabbed him three times. Once was in the right knee, the joint being penetrated. The other two places on his hand. She then gathered up her clothes and started out Tennessee street from her home, on South Fifth, but Marshal Collins gave chase. She was barefooted and gave him a good race, but he finally caught her, and then had a worse time than ever, as she laid down flat in the street and would not move. Finally she was turned over to Officer Ullman, and was this morning presented before Judge Sanders on a charge of malicious cutting.

Dr. Coyle was placed on the stand and said that Puckett was laid up and had a very dangerous wound in the knee, and one which may lay him up for several months, and will disable him for several weeks, at least.

Dr. Coyle, as an example, called attention to his own right leg, which was similarly injured when he was a boy, and which made him a cripple to some extent for life. The case was continued until Saturday.

## BLACKBURN ILL.

But It Said He Will Fill His Gubernatorial Appointments.

FRANKFORT, Ky., August 10.—Although it has been announced that ex-Senator Joe Blackburn has fully recovered from his recent illness, it is an open secret that he is far from being a well man, and that his close friends do not believe his health will permit him to take as active a hand in the campaign as the Democratic managers are planning for him. The senator has been suffering from kidney trouble for a year past, and in a recent attack the disease reached the acute stage.

At the Democratic headquarters in this city it is positively stated that he will fill his appointment with Mr. Goshel at Mayfield Saturday, and other points where they are held for point appearance, but this is said to be against the advice of his physician, as well as many close friends.
